Are you considering Abeka for your homeschool history curriculum? Choosing the right history curriculum can feel overwhelming, but this comprehensive guide dives deep into the Abeka history program, examining its strengths, weaknesses, and overall suitability for your family. We'll explore its approach to history, teaching style, resources, and more, helping you decide if Abeka is the right fit for your homeschool journey.

### **What is the Abeka History Curriculum?**

The Abeka Book Company offers a highly structured and traditional history curriculum spanning from elementary school through high school. Known for its strong Christian worldview and emphasis on memorization and recitation, Abeka history presents historical events within a biblical framework. This approach appeals to many homeschooling families seeking a faith-based education that integrates history with their religious beliefs.

#### **Key Features of the Abeka Approach:**

**Textbook-Based Learning:** Abeka relies heavily on textbooks, workbooks, and teacher's editions. This provides a clear structure and readily available resources.

**Sequential Learning:** The curriculum follows a chronological progression, building upon previously learned concepts.

**Memorization and Recitation:** A significant component involves memorizing key dates, names, and events. This method aids retention, but may not suit all learning styles.

**Christian Worldview:** History is presented from a Christian perspective, interpreting events through a biblical lens. This integration is a major draw for many Christian families.

**Teacher's Guides:** Comprehensive teacher's guides provide detailed lesson plans, answer keys, and teaching suggestions, making it easier for parents to guide their children's learning.

### **Abeka History Curriculum: Grade Levels and Scope**

Abeka offers a complete history curriculum covering various grade levels, from elementary to high school. Each grade builds upon the previous one, offering a cohesive and comprehensive approach

to learning history. The elementary grades focus on foundational knowledge and building historical timelines, while the upper grades delve into more in-depth analyses and critical thinking.

### **Elementary History (Grades K-5):**

The early grades introduce basic historical concepts, timelines, and significant figures, often through engaging stories and visual aids. Focus is on building a foundational understanding of history and preparing students for more complex material in later grades.

### **Middle School History (Grades 6-8):**

Middle school students explore world history, focusing on major civilizations, key events, and influential individuals. The curriculum becomes more rigorous, emphasizing cause-and-effect relationships and critical analysis.

### **High School History (Grades 9-12):**

High school students delve into more specialized historical periods and topics, including American history, world history, and government. The curriculum encourages greater research, critical thinking, and essay writing skills.

## **Strengths of the Abeka History Curriculum**

**Structured and Organized:** Abeka's highly structured approach provides a clear roadmap for both parents and students. The clear instructions and detailed teacher's guides make lesson planning easy.

**Comprehensive Coverage:** The curriculum covers a broad range of historical topics, providing a solid foundation in historical knowledge.

**Christian Integration:** For families seeking a faith-based education, the integration of a Christian worldview is a significant advantage.

**Strong Teacher Support:** The extensive teacher's guides provide invaluable support for parents who might lack formal teaching experience.

**Consistent Approach:** The consistent structure and approach across grade levels ensures a smooth and cohesive learning experience.

# Weaknesses of the Abeka History Curriculum

**Heavy Emphasis on Memorization:** The strong focus on memorization may not appeal to all learning styles. Some students may find it tedious and less engaging.

**Traditional Approach:** The textbook-heavy approach may not suit students who thrive in more hands-on or experiential learning environments.

**Limited Critical Analysis:** While upper grades encourage some critical thinking, the emphasis on factual recall may limit opportunities for deeper analysis and interpretation.

**Potential for Bias:** The presentation of history from a Christian worldview might present a particular interpretation of events, potentially omitting or downplaying certain perspectives.

## Is Abeka History Curriculum Right for Your Family?

Ultimately, the suitability of the Abeka history curriculum depends on your family's specific needs and preferences. Consider your child's learning style, your comfort level with a highly structured program, and your views on faith-based education. Weigh the strengths and weaknesses carefully before making a decision. Supplementing the curriculum with additional resources can also address some of its limitations.

## Conclusion

The Abeka history curriculum offers a well-structured and comprehensive approach to homeschooling history, particularly appealing to Christian families. While its strong emphasis on memorization and traditional teaching methods may not suit every learning style, its clear organization, extensive teacher support, and faith-based integration are significant advantages. Careful consideration of your child's learning preferences and your family's educational goals will help you determine if Abeka is the right fit for your homeschool journey.

**abeka history curriculum: Hijacking History** Kathleen Wellman, 2021-08-18 The teaching of history has long been the subject of partisan warfare. Religion often plays a prominent role in these debates, as secular progressives and conservative Christians disagree over which historical figures are worthy of study, how (or whether) certain events should be portrayed, and ultimately how tax dollars should be spent. But what about students who are educated outside the public schools, either in religious schools or at home? How are they learning history, and what effect does that have on our democracy? Hijacking History analyzes the high school world history textbooks produced by the three most influential publishers of Christian educational materials. In these books, the historian, informed by his faith, tells the allegedly unbiased story of God's actions as interpreted through the Bible. History becomes a weapon to judge and condemn civilizations that do not accept the true God or adopt biblical positions. In their treatment of the modern world, these texts identify ungodly ideas to be vanquished—evolution, humanism, biblical modernism, socialism, and climate science among them. The judgments found in these textbooks, Kathleen Wellman shows, are rooted in the history of American evangelicals and fundamentalists and the battles they fought against the tide of secularism. In assuming that God sanctions fundamentalist positions on social, political, and economic issues, students are led to believe that the ultimate mission of America is to succeed as a nation that advances evangelical Christianity and capitalism throughout the world. The Christianity presented in these textbooks is proselytizing, intolerant of other religions and non-evangelical Christians, and unquestionably anchored to the political right. As Hijacking History argues, the ideas these textbooks promote have significant implications for contemporary debates about religion, politics, and education, and pose a direct challenge to the values of a pluralistic democracy.

**abeka history curriculum: Catholic to the Core!** Kathy Husak-Tarnacki, 2022-02-17 Catholic to the Core was born out of a restlessness in the heart of the author. Since the early 1990s, Kathy Husak-Tarnacki felt a very distinct call from God to focus her skills and passions regarding education in a way that honored Christ in every way possible. The call was so clear to her that she approached her pastor at the time and asked for permission to open a school within the church. She had never been a principal and had never taken formal classes regarding administration, but she knew that when God calls, he equips. And that he did! The years that followed were filled with

unexpected twists and turns in her professional career and her journey of faith, from Catholicism to a non-denominational setting, then back to the Catholic Church. Each step exposed her to new aspects of the possibilities and challenges present when you pursue Christ wholeheartedly, as well as highlighting how far schools have fallen from fulfilling their God-given purpose. These experiences filled her heart and mind with thoughts, questions, concerns, and possible solutions for the lukewarm atmospheres of many of our Catholic schools. In 2014 she felt a tugging to begin to write her thoughts down on paper, not sure exactly what the purpose would be. Now in 2022, she is blessed with the opportunity to publish what she wrote and share it with the hope that it will encourage conversation, reflection, and determined action.

**abeka history curriculum: Saving History** Lauren R. Kerby, 2020-02-21 Millions of tourists visit Washington, D.C., every year, but for some the experience is about much more than sightseeing. Lauren R. Kerby's lively book takes readers onto tour buses and explores the world of Christian heritage tourism. These expeditions visit the same attractions as their secular counterparts—Capitol Hill, the Washington Monument, the war memorials, and much more—but the white evangelicals who flock to the tours are searching for evidence that America was founded as a Christian nation. The tours preach a historical jeremiad that resonates far beyond Washington. White evangelicals across the United States tell stories of the nation's Christian origins, its subsequent fall into moral and spiritual corruption, and its need for repentance and return to founding principles. This vision of American history, Kerby finds, is white evangelicals' most powerful political resource—it allows them to shapeshift between the roles of faithful patriots and persecuted outsiders. In an era when white evangelicals' political commitments baffle many observers, this book offers a key for understanding how they continually reimagine the American story and their own place in it.

**abeka history curriculum: Beyond Single Stories** Amy Allen, Anne Marie Kavanagh, Caitríona Ní Cassaithe, 2024-02-01 Every social studies curriculum tells a story. It is increasingly apparent that new stories are needed to guide us through the multiple and intersecting crises that have come to define our times. This accessible volume supports student teachers, teachers, and teacher educators to engage critically with the stories that social studies curricula tell and neglect to tell, particularly those that relate and contribute to the root causes of contemporary social and ecological injustices. A balanced and inclusive curriculum necessitates a broad range of stories and perspectives, not just the master narratives of dominant groups. Incorporating a range of pedagogical approaches and spanning a diversity of themes, from representations of Africa in Chinese textbooks, to slavery and the American civil rights movement, to refugees and the role of indigenous knowledge systems in addressing climate breakdown, this volume includes and creatively engages with previously marginalized and silenced stories and perspectives. Both practical and theoretical in its approach, it seeks to provoke, meaningfully support, and inspire educators to incorporate alternative stories or counter-narratives into their social studies teaching. This unique volume is essential reading for student teachers, teachers, teacher educators as well as anyone interested in inspiring children and young people to be open-minded, critically engaged, and empathetic agents of change, committed to addressing realworld social and ecological injustices.

**abeka history curriculum: The Power Worshippers** Katherine Stewart, 2020-03-03 The inspiration for the documentary *God & Country* For readers of *Democracy in Chains* and *Dark Money*, a revelatory investigation of the Religious Right's rise to political power. For too long the Religious Right has masqueraded as a social movement preoccupied with a number of cultural issues, such as abortion and same-sex marriage. In her deeply reported investigation, Katherine Stewart reveals a disturbing truth: this is a political movement that seeks to gain power and to impose its vision on all of society. America's religious nationalists aren't just fighting a culture war, they are waging a political war on the norms and institutions of American democracy. Stewart pulls back the curtain on the inner workings and leading personalities of a movement that has turned

religion into a tool for domination. She exposes a dense network of think tanks, advocacy groups, and pastoral organizations embedded in a rapidly expanding community of international alliances and united not by any central command but by a shared, anti-democratic vision and a common will to power. She follows the money that fuels this movement, tracing much of it to a cadre of super-wealthy, ultraconservative donors and family foundations. She shows that today's Christian nationalism is the fruit of a longstanding antidemocratic, reactionary strain of American thought that draws on some of the most troubling episodes in America's past. It forms common cause with a globe-spanning movement that seeks to destroy liberal democracy and replace it with nationalist, theocratic and autocratic forms of government around the world. Religious nationalism is far more organized and better funded than most people realize. It seeks to control all aspects of government and society. Its successes have been stunning, and its influence now extends to every aspect of American life, from the White House to state capitols, from our schools to our hospitals. *The Power Worshipers* is a brilliantly reported book of warning and a wake-up call. Stewart's probing examination demands that Christian nationalism be taken seriously as a significant threat to the American republic and our democratic freedoms.

**abeka history curriculum: *Christian Conviction v. State Persecution*** Paul Zylstra, 2022-02-22 They said it would never happen in America, but the First Amendment was severely attacked in Nebraska from 1977 to 1984. *Christian Conviction v. State Persecution* chronicles not only the events but why they took place. This was not isolated to a single denomination or group. Among the churches attacked were Amish, Mennonite, Apostolic, Pentecostal, Baptist, and Church of Christ. Among the homeschool families, the list expands farther. Faith, freedom, and liberty were all under attack by the Nebraska Department of Education and their allies in the courts and the state legislature. Before I ever met Paul, I had seen his face on the CBN film footage of him being hauled away by sheriff's deputies from an altar where he was praying with a group of men. As Paul writes in this book, Few cases of the loss of Christian freedom have drawn more attention than the jailing of the pastor and the padlocking of the [Faith Baptist] church building in Louisville, Nebraska. The powerful film footage and photos from this incident 'went viral' across the American evangelical landscape, and there was widespread outrage and concern. This persecution backfired: It would cement the courage and convictions of an entire generation of parents who had become increasingly alarmed about what was happening in public schools. --Sarah Leslie Publisher and Iowa Homeschool Leader Paul Zylstra and some of his compatriots were a large part of the intellectual undergirding of this endeavor that proved in large measure successful over a number of years. This book is a great work in establishing the underlying issues facing honest disciples in Jesus in responding to the intrusions of the state into matters of faith. --Pastor Larry Lautaret Nebraska Christian School Leader Most people feel that the First Amendment has been followed everywhere in the USA since the founding of this great country. In the 1980s, in the state of Nebraska, several people went to jail, lost jobs, and fled the state because there was an existing law that violated Christian liberty. As Christians realized, the government-controlled system was going against what the Bible taught. Therefore, they started their own schools free from state control. This book tells in detail what happened when the established government tried to control Bible Christianity in Nebraska and how the Lord of heaven stepped in and straightened things out. --Warren Rushton Author and Nebraska Homeschool Leader

**abeka history curriculum: *Disobedient Women*** Sarah Stankorb, 2023-08-08 A NATIONAL BESTSELLER! Journalist Sarah Stankorb outlines how access to the internet—its networks, freedom of expression, and resources for deeply researching and reporting on powerful church figures—allowed women to begin dismantling the false authority of evangelical communities that

had long demanded their submission. A generation of American Christian girls was taught submitting to men is God's will. They were taught not to question the men in their families or their pastors. They were told to remain sexually pure and trained to feel shame if a man was tempted. Some of these girls were abused and assaulted. Some made to shrink down so small they became a shadow of themselves. To question their leaders was to question God. All the while, their male leaders built fiefdoms from megachurches and sprawling ministries. They influenced politics and policy. To protect their church's influence, these men covered up and hid abuse. American Christian patriarchy, as it rose in political power and cultural sway over the past four decades, hurt many faithful believers. Millions of Americans abandoned churches they once loved. Yet among those who stayed (and a few who still loved the church they fled), a brave group of women spoke up. They built online megaphones, using the democratizing power of technology to create long-overdue change. In *Disobedient Women*, journalist Sarah Stankorb gives long-overdue recognition for these everyday women as leaders and as voices for a different sort of faith. Their work has driven journalists to help bring abuse stories to national attention. Stankorb weaves together the efforts of these courageous voices in order to present a full, layered portrait of the treatment of women and the fight for change within the modern American church. *Disobedient Women* is not just a look at the women who have used the internet to bring down the religious power structures that were meant to keep them quiet, but also a picture of the large-scale changes that are happening within evangelical culture regarding women's roles, ultimately underscoring the ways technology has created a place for women to challenge traditional institutions from within.

Berkshire and education scholar Jack Schneider answer these questions and chart a way forward. *The Education Wars* explains the sudden obsession with race and gender in schools, as well as the ascendancy of book-banning efforts.
